

ENVIRONMENTAL PROTECTION AND WASTE MANAGEMENT POLICY

Document No	PINO.P.001
Issue Date:	20.12.2025
Revision No:	001
Revision Date:	24.12.2025
Page No:	1

In our business, we protect the environment, prevent pollution, and prioritise conservation by reducing our negative impacts on the environment.

To this end;

- ❖ We comply with legal regulations and strive to reduce our environmental impact.
- ❖ We take care to effectively separate our waste at the source according to its groups and hazard classes.
- ❖ We recognise that using hazardous substances and chemicals only when necessary and in required amounts reduces both negative environmental impacts and the amount of waste.
- ❖ We contribute to the protection of nature by preferring materials labelled as "recycled" and "eco-friendly" for the items we purchase for our business.
- ❖ We strive to create opportunities for reuse.
- ❖ We take care to use disposable materials such as paper, napkins, toilet paper, and packaging only as much as needed to leave less waste in nature.
- ❖ We store waste correctly in separate areas according to its characteristics, deliver it to licensed/authorised companies without exceeding legal storage time limits, and maintain their records.
- ❖ We strive to use water, energy, and all natural resources efficiently.
- ❖ We share this sensitivity with our employees, guests, and suppliers.
- ❖ We measure our performance in environmental management, monitor this data against targets, and strive to improve our performance
- ❖ We aim to train our employees on environmental issues and increase their awareness.
